A flight management system (FMS) is a fundamental component of a modern airliner's avionics. An FMS is a specialized

Access Free 737 Navigation System Ata Chapter 34 Elosuk

computer system that automates a wide variety of in-flight tasks, reducing the workload on the flight crew to the point that modern civilian aircraft no longer carry flight engineers or navigators. A primary function is in-flight management of the flight plan.

Flight management system -
