Course Catalog - New Hampshire Fire Academy & EMS

In version 13.0 of the Medical Priority Dispatch System™ (MPDS®) there are 1,828 possible Determinant Codes. Each can be associated with a specific response assignment: the resources that an agency deems appropriate and—if an agency chooses—whether it should respond “HOT” (lights-and-siren) or “COLD” (no lights-and-siren).

Determinant Codes - The Journal of Emergency Dispatch

The term EMS is used within the context of this course to mean emergency medical services, fire rescue, or for that matter, any other emergency responder rendering aid to a 911 patient. For EMTs and paramedics, mastery of basic pharmacology is a skill set that is used on almost every call for service.
