Morays are eaten in some areas of the world, but their flesh is sometimes toxic and can cause illness or death. One species of moray, *Muraena helena*, found in the Mediterranean, was a great delicacy of the ancient Romans and was cultivated by them in seaside ponds.

10 of the World's Most Dangerous Fish | Britannica

The terrifying Aswang is the most feared creature of Philippine folklore—and with good reason. Stalking its prey in the small, rural towns of the Philippines, this deadly monster nocturnally hunts for a meal of human flesh and blood. What is an Aswang? The Aswang (æ-swang) is a flesh-eating, shapeshifting monster. During the day, Aswangs appear as regular townspeople, though they may be observed by others to have reclusive habits or magical abilities.

Aswang - Mythical Creature from Philippine | Mythology.net

Alligators/Crocodiles -. Measuring over 15ft and weighing half a ton, these ruthless water-dwellers are tenacious in their hunt for flesh. Boasting a toothy clamp strong enough to crush the bones of its prey, alligators use their brute force to render their prey useless, before moving in for the kill.

Deadliest animals in USA - AmeriCamp

The animals that eat them are called carnivores, which are armed with different “weapon” to catch their prey. Some animals (such as human beings) use their intelligence to trick their victims. Others resort to more aggressive means, such as claws or poison, to hunt effectively. No matter what, all of these animals manage to make their kill.

The 5 Most Lethal Animals - My Animals

still features some deadly alien creatures that aren't really given a name in the film, beyond "gorilla-wolf motherf**ers." It's an apt description of the creatures, as they share similar aspects of the two dangerous Earth-born creatures- with a twist.

10 Deadliest Sci-Fi Movie Monsters, Ranked | ScreenRant

Known for its eerie laughter, this is one savage scavenger. It mainly feasts on dead carcasses but will hunt prey if hungry enough. Even more worryingly it can get a taste for human flesh at times if corpses are left out, unburied. When this has happened, it has been known to hunt humans and take them for food.

10 Most Dangerous Animals In The World

For decades, Hollywood blockbusters have portrayed sharks as toothy killing machines with a taste for human flesh. But shark attacks, and fatalities, in particular, are probably much rarer than you...

Animals That Are Less Dangerous Than You Think | Reader's ...

Surprise! Humans are the most dangerous animals in the world. We kill more other humans than all the other animals on this list combined. We pollute the environment, we overuse resources, we wage wars with guns and other weapons, and we eat and kill many animals that would be threats to us. We are the worst!
