Troca do carburador H30 Pic

a) On H30/31PICT and 34PICT Carburetors, the Solenoid is located on the LEFT side of the Carburetor. Disconnect the Terminal at the Solenoid, turn on the Ignition (don't start the Engine), then momentarily touch the Solenoid Terminal with the wire lead terminal. You should hear a "clicking" sound which indicates the Solenoid is working.

H30/31 with the 009. Soooo, It depends on your distributor. If you are running an 009 keep the H30/31. If you have a SVDA distributor, I would recommend the 34-3. The H30/31 ran ok with both distributors but a 34pict3 will not run for crap with a 009. Hope this helps.
