Check engine light code: p26b7 : Ford - reddit
Hi. You could have something wrong with the evap system with the evap system to get code p0456. But for right now, for code P26b7 Ford has a service bulletin out for this code. There is an updated coolant bypass solenoid. I would start by performing this service bulletin then clearing the codes and seeing what comes back, if anything.

HAVE A 2013 FORD FUSION.. HAVE THESE CODES ... PLEASE SEE ...
I had this code P26B7 recently. Bought a Water pump at Aurozone and fitted that at Pepboys. Costs of parts were around \$53 including pump and Coolant. Pepboys charged \$220, which i could have haggled or went to other place and got done at probably \$100-120. Ford dealer asked \$450 including taxes and parts. Pepboys took 1 hour to complete the job.

Ford Questions - Code - CarGurus
If in fact you have the 1.6 engine in your 2013 Escape then then the code P26B7 set in most cases due to a failing Engine Coolant Bypass Valve and this is a known concern as well and Ford has released a service bulletin dealing with this that calls for replacing the Engine Coolant Bypass Valve and having the computer reprogrammed with the latest software. This is something you should not put off any longer than you just have to and should be addressed sooner than later.
