In theory, the student who answers a given question correctly should have a tendency to perform better on the total exam than a student who answers the same question incorrectly. We therefore expect a positive correlation between the probability of a student getting a question right and the student's score on the exam.

Statistical Analysis of Multiple Choice Exams

Probability is the maths of chance. A probability is a number that tells you how likely (probable) something is to happen. Probabilities can be written as fractions, decimals or percentages.
